

# Recover and analyze evidence in one case

Examine digital evidence from mobile, cloud, computer, and vehicle sources, alongside third-party extractions all in one case file. Use powerful and intuitive analytical tools to automatically surface case-relevant evidence quickly.

---

**Magnet Axium is purpose-built to recover, process, and analyze digital evidence from a variety of sources regardless of whether you use Axium or third-party tools to acquire your data.**

#### **Mobile**

Process and analyze iOS and Android extractions with direct Magnet Graykey integration and support for third party tools.

Axiom's new, intuitive Mobile View helps you, and your stakeholders, easily navigate and interact with mobile evidence.

#### **Computer**

Recover evidence from Windows, Mac, Chrome, and Linux devices. Analyze RAM, browser history, deleted files, and more.

#### **Cloud**

Analyze data from warrant returns, user-generated archives, live cloud services, and open-sources (OSINT) with artifact support.

#### **Vehicle**

Analyze vehicle data with support for Berla iVe extractions and dedicated artifacts. Easily plot geolocation data on the world map.

---

#### **Artifact support**

Dedicated artifact support provided for the most popular and relevant sources. All your sources, in one case file.

The advanced parsing and carving techniques of Magnet Axiom get the most data from each evidence source. Axiom is designed to surface relevant data for your investigation. Plus, built-in analytics tools automatically generate insights that could lead to important breakthroughs in your examinations.

---

### Rapid triage, ultra-simple approach

Axiom is available with a Magnet Outrider license to help you quickly identify actionable intelligence with lightning-fast triage of computers, mobile devices, and drives.

---

### Automatically surface more evidence with analytics tools

#### Media explorer

Filter out icons and non-relevant images with Magnet.AI. Hitstack similar images, add hash sets, and automatically grade and blur CSAM.

#### Connections

Quickly piece together how artifacts, people, or even devices relate to each other. Find and visualize data across your sources.

#### Timeline

Timeline does the heavy lifting so you can rapidly learn and validate what happened leading up to or following an incident.

#### Cloud insights dashboard

Cloud account information is automatically surfaced in the Cloud Insights Dashboard, uncovering new sources of evidence.

#### Magnet Copilot - early access

AI tools to help you quickly surface relevant evidence and identify synthetic or generated media.

---

### Purpose-built reporting and case sharing

Axiom offers flexible export options, including portable case, enabling you to choose and share the data that is most relevant to your case. Plus, you can improve the efficiency and consistency of reporting agency-wide with export templates.

Magnet Exhibit Builder is also available with Axiom helping you combine Axiom case data and other evidence using intuitive word processing tools to create concise and comprehensive case overviews

---

### Accelerate your workflows

Create streamlined, automated workflows with an optional Magnet Automate Essentials license that lets you turbocharge your digital investigations and integrate any tool from your DFIR toolkit.

---

### Try Magnet Axiom for free

Get a [30-day trial of Magnet Axiom](#) and see for yourself how it can help you find the evidence that matters, faster.
